
CONCRETE LCDA

Innovative solutions in concrete for interior design

Short presentation of **SLIMBETON®**

SLIMBETON®

Concrete LCDA is pleased to introduce Slimbeton®: a new generation of lightweight concrete wall cladding. The patent developed by our company in 2015 allows us to offer 7mm thick fibre reinforced concrete cladding. Slimbeton® can also be fitted as decorative panels to dress up furniture, kitchens and any other substrate.

Slimbeton® is available in two ranges: Classic and Scaffolded 2mm in 3 different finishes: light, medium and heavy pitted.

- Competitive price
- Quick installation
- Single dimension

Steps to choose your **SLIMBETON®**

1. Choose your pattern

Classic

Scaffolded 2mm

1200 x 800 mm

2. Choose your color and texture

STANDARD COLOUR

200 - Natural grey

SPECIAL COLOUR

402 - White

404 - Stone

216 - Anthracite Grey

217 - Slate grey

205 - Brown

209 - Black

FINISHES

Light pitted

Medium pitted

Heavy pitted

3. Choose your product treatment

CONCRETE LCDA

SEALER TREATMENT - TECHNICAL INFORMATION
